EGYPTIAN SITUATION VERY GRAVE

(By Associated Press)

Dispatches state that mutinous conditions prevail at several centers and mysterious deaths in connection with disorders have occurred.

(By Associated Press)
The conflicting claims to the city of Fiume and the Dalmatian coast which have been laid before the peace conference in Paris by Italy and Jugoslavia will probably be brought to a decision soon. This controversy, one of the most troublesome to be considered by the conference, has aroused public sentiment in Italy. According to present plans the allied terms of peace may not be laid before the Germans before Saturday of next week. This will delay proceedings to some extent. It is not expected that the German delegations can go to Weimar, receive instructions and return to Paris before May 8th. The German delegates will be permitted to ask questions to elucidate obscure points, but nothing approaching a discussion of the terms will be permitted. Only President Wilson and the allied Premiers will be present when the terms are presented to the Germans. It is expected the league of nations will have the place of honor in the terms. Premier Clemenceau, who refused on Wednesday

to join in the conditional agreement to feed Russia through neutral nations, has at last attached his name to the undertaking. Telegraphic communication between Berlin and Munich has been severed and Bamberg, Bavaria is also cut off from Berlin.

CARRIER PIGEONS FROM NEWCASTLE TO BOSTON

Carrier pigeons carried messages between the Commanding officer of Fort Constitution and the Northeast Department Headquarters in Boston on Thursday, owing to the Telephone strike.

The first of the birds were released from the Fort Thursday forenoon and they arrived in Boston early in the afternoon. The birds are of the signal corps carriers and they have but recently been installed at the Fort. During the strike several birds will make the flight each day.

The Government has a special line of their own and the use of the birds is in the nature of drills for the troops and at the same time practical.

NATION WIDE STRIKE THREAT

Providence, R. I., April 18—A national strike, July 1, seems to be favored by 150,000 electrical workers in the United States, according to J. P. Coleman, acting president of the International Brotherhood of Electrical Workers, whose headquarters are located here.

He said the official canvass of the vote of the electrical workers on the strike question would not be completed until May 11, but from indications of the vote in a large number of states, a great majority favor a strike.

There are 150,000 members in the International Brotherhood of Electrical Workers which include linemen, cable men, spicers, installers and repair and telephone operators.

The strike responsibility, if the becomes effective, will rest with President General Burleson, he said. "He has refused time and again to recognize the Telephone Employees' union, even after President Wilson has turned our request over to him. I personally have appealed to him 12 times, but he has taken no action. We appealed to the War Labor Board and the Department of Labor, and feel sure these two bodies did what they could in our behalf."

Mrs. Frank (Hutchinson) and son, Eugene, left today for Dover, N. H., to spend a few days with Mr. and Mrs. Cecil Seaward.

Mrs. Herbert Baker left today for Bridgeport, Conn., where she will make an extended visit with her daughter, Mrs. Walter Kupper.

Topic of sermon at the First Congregational church on Sunday morning is "The Manifestation of Believers in Glory." A baptismal service will follow. Special Easter music will be rendered.

Francis Plisk has returned to his duties at the navy yard after being confined to his home with a severe cold.

Mrs. M. J. Hornsburger has returned to Newton, N. H., after a few days visit with her mother Mrs. Margaret Anne.

AD KITTERY POINT ... (by) ... The home of Mrs. W. T. Coffin was the scene of a pleasant gathering last evening when a miscellaneous shower was given to her daughter, Miss Rachel Coffin, in view of her approaching marriage.

The members of the First Christian church of which Miss Coffin is a member, gave the shower, which was given as a surprise. Miss Coffin was ushered into the living room where the table was filled with daintily ribbon tied packages, which contained many articles of fine linen, cut glass and many useful gifts which showed the esteem in which the young lady is held. Music from the Victrola was rendered, and refreshments of harkett ice cream was served.

Senator Moses' Commendable Frankness.

Senator Moses is to be commended for his frankness, which should increase the respect of the suffragists for him, even though they are sorely disappointed by the stand he takes on the suffrage question.

At a conference at Manchester a few days ago a number of suffragists requested Senator Moses to vote for what is commonly known as the Susan B. Anthony amendment, an amendment to the constitution providing for woman suffrage throughout the United States, and were plainly told by him that he had nothing to add to his previous statement on the subject. Mr. Moses is not in favor of woman's suffrage and is willing to stand by his convictions, however unpopular his stand may be in any quarter. He does not beat about the bush and attempt to play the game of "Good Lord and good Devil."

And in the course of the conference between the senator and the suffragists one of the glaring evils of the day was incidentally brought to the surface. One of the women asked him if he thought he was representing the sentiment of the state in opposing suffrage and he replied that he did. The woman then asked him if he did not think the men who signed the petition asking him to vote for suffrage represented the sentiment of the state, and Mr. Moses' response was this: "I wonder if you know how many letters I received from signers of that petition asking me to disregard their signatures?"

There is a sample of something that is altogether too common in this day and generation. There are too many who want to be all things to all men. Such men are to be found in every city and town in the land. Against their convictions they will sign petitions to please the petitioners, and then request the official or body to whom the petition is addressed to disregard their signatures. If you do not believe this, get in confidential touch with some one who has had experience in the petitioning line, and you will soon be convinced that it is so.

But it is a cowardly practice, unworthy of any self-respecting man. Far better is it to face the music and stand by one's convictions, as Senator Moses does. The penalty may be temporary unpopularity among the boosters of a scheme or a "cause," but in the long run the man who does this will stand far higher in the estimation of his fellows than the dodger who professes to favor what at heart he opposes in the hope of saving or gaining trade in his business or votes at some future election.

The need of the time is greater independence on the part of private citizens and public officials alike. There is too much demagoguery, too much hypocrisy, too much dodging and hedging, too much sacrifice of principle and conviction in an effort to please everybody.

It would be better for the country if more men would emulate the example of Senator Moses and stand boldly by their convictions through thick and thin. It would then be possible to sense public sentiment correctly, something which at times is now very difficult.

RESCINDS

PROCLAMATION FOR APRIL 19

Concord, April 18.—The Welcome Home celebration which was to have been held in Manchester on Saturday, April 19th having been cancelled on account of orders from the War Department forbidding the men of the twenty-sixth division to parade and therefore the cause for the issuance of my proclamation requesting that the 19th be observed as a holiday having been removed, I hereby rescind such portion of the proclamation as relates to April 19th.

JOHN H. BARTLETT, Governor.

EVERYBODY'S OPENING WAS BIG SURPRISE

The spring opening at Everybody's Store yesterday afternoon certainly struck a popular chord. From two o'clock in the afternoon until late in the evening the store was crowded with interested guests.

The attractive models displayed some of the most delightful creations ever shown in women's suits, coats, afternoon and evening wear, while many congratulations were extended to the management on the special Easter offerings.

Musical by a large orchestra was furnished throughout the opening and the extensive alterations that have just been made have turned the store into a virtual showplace.

The new women's and men's display of garments, millinery, haberdashery is so complete and attractive that many

people commented that Portsmouth seems to be congratulated on having such a progressive store.

HOLY WEEK

This week, Holy Week, is the most quiet of the year in social circles, the week commemorating the last week on earth of our Lord. The week began with Palm Sunday when with befitting ceremony, with trumpets and waving palms, was commemorated the entry into Jerusalem. Yesterday, Holy Thursday, commemorated the last supper of Jesus Christ before His passion and death and the institution of the sacrament of Holy Eucharist.

Easter day this year will be in striking contrast to the two previous Fasters. Two years ago President Wilson's proclamation declared that a state of war existed between the United States and Germany and last year at Easter time our American boys had just been promised by Secretary Baker that they would have their opportunity to aid the French and British and stop the drive toward Paris.

Easter of last year again found all anxious and victory seemed far off, but the Russian war machine later crumbled and this year we have Victory Easter and there is great cause for rejoicing on this day of days in the church calendar.

WILL SEEK TO OUST BOARD OF DIRECTORS

Central Labor Union Wants Broader Minded People in Charge of Hospital.

In a statement to a Herald man this morning, the secretary of the Central Labor Union said:

"That it was the intention of Mr. Fred W. Staten, president of that body, and himself to appear before the city council at their next meeting and ask that body to stop the abatement of the taxes of the Portsmouth hospital on the grounds that the institution was being conducted as a money-making enterprise, and was not open to the public as an institution of this kind should be."

"Mr. Staten will also explain that the \$500 annually given to this institution by the city should be stopped on the grounds that the possession of funds of several thousand dollars precluded the necessity for municipal assistance."

"Also action is contemplated before the courts to institute proceedings to oust the present board of directors and substitute a board of broader and more philanthropic views."

"These matters will be fully discussed at the next meeting of the Central Labor Union, when legal counsel will explain the steps necessary to procure the end sought."

PEOPLE'S OPINIONS

Recommend Deduction.

Editor:—It would be interesting to know what the telephone company intends to do about telephone rental in this city when the present statute is cleared up. In the city of Lowell firms and people who rent residential telephones intend to ask for a deduction of payment for the time their telephones were not in use. This plan should be carried out every where in cases where they were not in use. This is nothing more than a square deal for the public who are not responsible in any way for the strike and the loss of service.

SUBSCRIBER.

DOCTORS WILL NOT TAKE ANY CHANCES

Many of the local doctors say they are not going to depend on the local hospital in the future and wherever there is any question as to the crowded conditions there and a probable argument with the management, they are going to remove patients requiring operations to the hospitals at Exeter, York or Dover if such can be admitted in either of these places.

LOCAL PHONE SITUATION UNCHANGED

Rochester and Exeter Phone Girls Join the Strikers.

Manager Edward H. Brew, in discussing the phone strike this noon said that the situation remained about the same.

Three operators were working in the local exchange this morning and local service was given as far as possible.

A limited number of toll calls were made from and to Boston but the service was spotty.

The Rochester, Exeter and Dover girls are out this morning and Miss Sullivan of the Boston Union strikers' committee made a ying tone of the exchanges, organizing and acquainting the girls with the situation.

Serious strikes in the electrical trades throughout the country was the absorbing topic in phone circles today and predictions were freely made that unless this present trouble was speedily adjusted strikes of a far more severe nature would follow quickly.

Miss Rose Sullivan left for Hampton and Salisbury Beaches, after which she went to Rochester and Somersworth.

The plant men are relieving the girls of much of the picketing duty during the day and are doing the whole trick during the night.

Hope for a speedy adjustment of the trouble is held out by the growing seriousness of the strike.

It is steadily gaining in number of people involved and should not be allowed to go on or ever more serious results are looked for.

THE HERALD HEARS

That the army boys will not be seen in the local baseball league this summer.

That the plans for the change of the fire alarm box numbers have been perfected.

That the home fires should be kept burning a while longer, especially the furnace.

That coal is high, but doctors' bills are higher.

That Winslow H. Cook of York, a teacher, has filed a petition in bankruptcy.

That he claims his debts are \$157, on accounts with people in Somerville, Mass., Auburn and Lewiston, and his assets are valued at \$10.

That the water in the public drinking fountains should be turned on.

That the telephone strike is hard on

the florists who get hundreds of Easter orders by phone.

That you should order your flowers early for Easter, owing to their scarcity.

That the usual supply of Easter lilies is limited this year and florists cannot begin to supply the demand.

That potted geraniums and other bright flowers are being substituted for Easter plants when lilies cannot be procured.

That war conditions, scarcity of coal and help make potted plants and flowers less plentiful than in past years.

That the pretty girls of Cincinnati are to "bombard" the returning soldiers, but the ammunition used is going to be in the bonquets. Ten thousand carnations and roses have been ordered for this purpose and while the flowers are being strewn in the path of the marching heroes, other girls and boys are to sing patriotic songs.

That Manchester has ordered an impressive sign built to greet the boys of

the 26th division as they step off the train upon their arrival home. The welcome home sign is to be 14 feet long and 10 feet wide.

That the slogan "See America First" is in a way to be changed to "See America Thrift."

That the adherents of the local lodge of Elks are sorry that the organization is not represented by a team in the Sunset League.

That a fussy man always gets in his own way when he is in a hurry.

That Portsmouth soldiers will all be home before the welcome sign is put in place at the depot.

That some men are credited with dressing quiet but this does not apply when they are hunting for a lost collar button or wrestling with a new stiff collar.

That a move is being made to organize the waiters and waitresses of this city and perhaps the dishwashers.

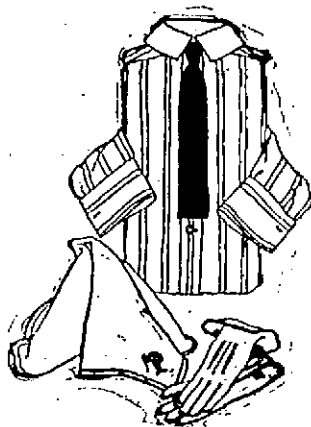

That the question is: "Will the telephone service be receiving now as on next month's bill?"

SUNSET LEAGUE TO HAVE SIX TEAMS

A meeting of the officers of the Sunset League was held on Thursday evening at the P. A. C. and there were present the manager of all of the teams that will be represented in the league this year.

It was an enthusiastic meeting and some changes were made. It was voted to start the season on June 2 instead of May 20 as of last year and to play six teams. A five inning game instead of the seven inning of last year was adopted as experience proved that the seven innings was not popular.

The teams that will be represented are: P. A. C., Knights of Columbus (The Y. M. C. A., The Navy Yard (Civilian) Receiving ship Southern and a Ship Yard team. The last named may be a combination of the Atlantic and the Shattuck or it may be the Atlantic alone.

LOCAL ODD FELLOWS WILL GO TO PORTLAND

There will be a large number of Odd Fellows from this city who will attend the Maine celebration of the 100th anniversary of Odd Fellowship. The local Odd Fellows will send down about fifty and Hampton will send a delegation, while from Kittery a good part of the Riverside Lodge will attend.

The trip will be made on a special train which will leave this city at 7:40 and it will be an all day affair. The program calls for a parade in the forenoon, a dinner, working of the three degrees, the Riverside Lodge of Kittery working the first degree, and a banquet. The train will not start back to this city until midnight.

The Portsmouth Odd Fellows are joining with the Maine Odd Fellows in the celebration owing to the fact that there is no state celebration here.

The local Odd Fellows understood that a state celebration was to be held in Nashua, but for some reason this was given up and the Districts notified to arrange for their own celebrations, but the notice reached the locals so late, they decided to join with the Maine celebration at Portland. The local members are no strangers at Portland, and they are anticipating a big time.

RAIN WILL HELP OUT FARMING

There was a heavy fall of rain during the past twenty-four hours, the southeasterly storm (coming into a northeasterly, but with the shift of the wind the rain fell diminished. The rain will be of great benefit to the ground and start the grain in good shape.

Every day The Herald is obliged to refuse advertising.

OFFICIAL FACTS ABOUT HOSPITAL

Realizing the fact that the hospital is run for the benefit of the public, and that the Annual Report is not generally read, the Directors would like to state a few facts.

The Portsmouth Hospital is managed by a Board of Trustees and a Board of Directors.

The Board of Trustees is composed of representative business and professional men, which has control of the funds of the hospital, and of all improvements and enlargements of the building.

The Board of Directors has the management of the general affairs of the hospital and handle only the current expense account.

The receipts at the hospital have not paid the running expenses. Therefore the need of the Annual Hospital Day.

The request made for an addition to the building is still in the hands of the executors of the estate.

Because of the free beds 2321 days in 1918 were free to patients or about one-fifth of the total number of hospital days.

Although during the war the emergency cases have filled the hospital to overflowing, it must be clearly understood that the hospital has accommodations for only thirty-five beds, but in addition to these emergency cases are never refused.

It is a matter of regret to the Directors that the present size of the hospital does not permit them to provide accommodations for more patients, and they look forward to the time when with enlarged quarters they may be able to serve the public more efficiently still.

For the Directors,
RUTH R. JARVIS,
Secretary.

THIN, FRAIL FOLKS NEED PHOSPHATE

Nothing Like Plain Diphosphate to Put on Flimsy, Healthy Flesh, and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing hilly hollow and angles by the soft curves of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as "Litho-phosphate" which is inexpensive and is sold by Dr. W. Adams in Portsmouth and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, Litho-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear. Full eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION.—Although Litho-phosphate is insured for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quantity of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blotches disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

BOSTON GETS TRANSPORTS

Boston, April 18.—Better days are coming at the Boston navy yard. The Patricia and Pretoria, two former German ships, are to be repaired at the yard, with the result that many of the men recently laid off "on furlough" will be taken back. The Patricia arrived today with members of the 28th division.

The army will pay for the repairs, which are charged up to transport service. Congressman John J. Fitzgerald resolved word of the coming of the ships for repairs from Rear Admiral J. S. McKean, head of the bureau of naval operations. Admiral McKean telegraphed the congressman: "German ships Patricia and Pretoria due Boston about 22d for limited repairs."

THE UNIVERSAL CAR

When you want your Ford Car repaired, insist always upon getting the genuine Ford parts, made by the Ford Motor Company, in order to insure reliable quality. There are "spurious," "counterfeit," "imitation" parts made by outside concerns who have no regard for quality in material, so insist on your Garage or Repair man furnishing you the genuine Ford Parts. All reliable garages may now buy the genuine Ford Parts from us—so there's no excuse for any one using the "bogus" parts. To be sure, bring your car to us for repairs or replacements.

BABY CARRIAGES

It is impossible to separate the well being of the household from the health, happiness and safety of the youngsters. Because the welfare of the baby so intimately concerns the welfare of the home, we have made a most careful selection of carriages, and go-carts.

Our carriages are endorsed by physicians and adopted by intelligent mothers. The "Whitney" carriage is scientifically constructed to give easiest riding comfort, safe and long wear. Finest steel, best reed and most skilled workmanship produce a finished product and deserve the consideration of mothers who consider the comfort of the baby.

Every mother in the city and vicinity is cordially invited to examine our baby carriages.
